Education

Saginaw Valley State University (SVSU)
Bachelor of Science in Computer Science
Expected Graduation: Winter 2027
GPA: 3.84

Technical Skills

- Languages: JavaScript, Java, SQL
- Frameworks & Libraries: Node.js, Express.js, Sequelize, Handlebars
- Databases: MySQL
- Tools & Platforms: Git, GitHub, VS Code
- Concepts: REST APIs, MVC architecture, CRUD operations, backend development

Projects

Fitness Tracker Web Application

- Developed a full-stack fitness tracking application that allows users to manage workouts, goals, and progress logs.
- Implemented user authentication and session management for secure access.
- Built using Node.js, Express, Sequelize ORM, and MySQL with a structured MVC architecture.

Task Manager API

- Designed and implemented a RESTful API for managing tasks and workflow operations.
- Created structured endpoints for creating, updating, retrieving, and deleting tasks.
- Focused on backend architecture and API design using Node.js and Express.

Movie Watchlist Web App

- Built a web application allowing users to maintain a personal list of movies to watch.
- Implemented dynamic UI behavior using JavaScript with clean HTML and CSS layout.

Professional Experience

Manager | McDonald's

- Supervise daily shift operations and coordinate staff responsibilities in a fast-paced environment.
- Ensure customer satisfaction and operational efficiency during high-volume service periods.
- Train and mentor new employees while maintaining team productivity and service standards.
